

# The Best Stores for Furniture and Home Decor

**Anthropologie** – Beautiful furniture and decorative objects. The furniture is not inexpensive but you're sure to find something unique. [anthropologie.com](http://anthropologie.com)

**West Elm** – One of the first places I look for modern furniture and accessories at an accessible price point. [westelm.com](http://westelm.com)

**Pottery Barn** – It's like the little black dress of home furnishing – solid and dependable for basics. Nothing too flashy but workhorse pieces that will last forever. [potterybarn.com](http://potterybarn.com)

**Wayfair** – Overwhelming with so much to choose from, but a range of price points and a generous return policy, [wayfair.com](http://wayfair.com)
